

Recommended Online Resources

Species Identification

The following Facebook groups are helpful resources for species identification. Please keep in mind that although these groups are well moderated, they are run by volunteers.

Australian Bird Identification

Australian Mammal Identification

Australian Snake Identification, Education & Advocacy

Further Education

Wildlife Heroes | Foundation for National Parks & Wildlife Veterinary Training

Byron Bay Wildlife Hospital have created a series of free 10-minute videos that cover the basic veterinary assessment of various wildlife species.

WIREs Veterinary Training Hub

WIREs have developed a free training hub for veterinary staff to learn more about treating wildlife, and it is worth CPD points! Enrol online.

Taronga Veterinary Professional Training

Taronga has an online wildlife veterinary staff training course, with an optional practical component carried out at CWH. It does incur a cost (\$200-\$695) but it is also worth CPD points (20-32).
