

Foundational Partners Invitation

# CURRUMBIN WILDLIFE INSTITUTE

A once-in-a-generation invitation to our construction partners and contractors

 LEARN MORE

The Currumbin Wildlife Institute (CWI) will be Australia's leading centre for native wildlife conservation, veterinary science and education. Built on the grounds of Currumbin Wildlife Sanctuary, as an extension of Currumbin Wildlife Hospital. The Institute isn't just about scientific breakthroughs; it's about offering real hope for a different future for threatened native species.

**You are already part of this story. As a construction partner contributing your skill, materials and craftsmanship to the build, we are inviting you to take one further step — to become a Foundational Partner of the Currumbin Wildlife Institute.**

*"I've been working at Currumbin Wildlife Hospital for 25 years, and the wildlife admissions go up year after year. The problems we see, particularly in endangered Koalas, are preventable.*

*Currumbin Wildlife Institute will provide us with the tools we need, to save the iconic Koala and many other native Australian species".*

Dr Michael Pyne OAM, Senior Veterinarian, Currumbin Wildlife Hospital

## YOU ARE INVITED TO LEAVE A LASTING LEGACY

Every brick laid, every beam raised and every system installed at CWI is part of a building that will outlive us all — creating a future for endangered Koalas and other threatened species.

Dr Michael Pyne OAM and the National Trust of Australia (QLD) invite you and your leadership team to explore how, together, we can stretch every dollar of this build further and embed your organisation into the legacy of the Institute by becoming one of the select group of Foundational Supporters.

Becoming a Foundational Partner is more than a transaction. It is a public statement that your organisation builds with purpose — that the same hands raising the walls of the Institute also helped make its mission possible. This is a statement to your community and your family, you will leave a lasting legacy that we can all be proud of.

## EACH FOUNDATIONAL SUPPORTER WILL BE FORMALLY RECOGNISED AS A PARTNER SAVING AND PROTECTING WILDLIFE FOR FUTURE GENERATIONS.

### Donations, Gifts & Generous Support

Express your values through a tax-deductible philanthropic gift to the Currumbin Wildlife Institute. Whether through a one-off donation, a multi-year pledge, dedicated naming of a room or piece of equipment, or staff matched-giving, your contribution will sit alongside your construction legacy and be recognised as part of the building and the enduring future of native wildlife.

## FOUNDATIONAL SUPPORTERS PROGRAM

Support with a minimum \$10,000 annual tax deductible donation.

### Permanent donor wall

Your name engraved alongside other Foundational Partners at the entrance to the Institute — a legacy visible to every visitor, student and scientist for decades to come.

### Naming opportunities

Spaces, theatres, wards and equipment available for dedicated naming, in alignment with your level of contribution.

### Profile & storytelling

Recognition across CWI launch communications, National Trust QLD digital channels, media releases and ribbon-cutting events.

### Site & supporter access

Behind-the-scenes site visits during construction, and invitations to Foundational Partner-only briefings with Dr Pyne and the research team.

### Tax & values alignment

Tax-deductible giving through a registered DGR, plus a clear corporate-values story you can share with staff, clients and stakeholders.

**Thank you for being an integral part of this groundbreaking work. Together, we are building a future where koalas are thriving in the wild and where we have the answers to solve the problems facing native wildlife protection.**

## Next Steps

We welcome a conversation with you and your leadership team — on-site, online, or over coffee — to walk through the build, the vision, and the ways your organisation and leadership team might come on board. There is no obligation, and every conversation is treated in confidence.

**Currumbin Wildlife Institute**...*Creating a future for wildlife.*
